The Squirrel Hill Electric Railway Ordinance is Adopted,

BUT THE BIG BUSINESS IS IN POLITICS.

Being close to election time, it was with difficulty that a quorum was secured to do any councilmanic work yesterday; that, at least, was Mr. Skelton's explanation of the delay in getting a quorum.

The report of Superintendent of Public Safety, J. O. Brown, giving the detailed expenses of his department, was the first matter of public interest met. It showed 486 employes in the department. The report was ordered printed, each member to be furnished with a copy. The reports of the City Treasurer, Mayor, Superintendent of the public. was ordered printed, each member to be Public Charities, were similarly served, save that at Dr. Grimes' suggestion a vote of thanks was tendered Mr. R. C. Elliot for his'n, though, as Mr. Lambie pointed out, it showed that the preacher connected with that department received a smaller salary than any other incumbent.

The Squirrel Hill electric ordinance was read, and Mr. Skelton wanted to know how it came to be stuck in Councils since last May. He intimated that he thought there might be something wrong in it, and did not propose to vote blindly. Mr. Robertson explained that Forbes street had objected last year to a steam railway, but had finally consented to allow an electric road.

WHY IT WAS IMPORTANT. Messrs. Evans and Frew said the road was of the utmost importance, as at present the city of Pittsburg consisted of 206 members; a portion of the city was practically further from the business center than were the towns of Braddock or McKeesport.

Mr. Lambie objected that only the locations of the ends of the road were given and Mr. Frew stated that streets were not named because there were no streets in the section, and the explanation served to give general entisfaction until Mr. Sullivan arose and said he would vote against any proposition to allow electricity as a motor on any street car railway. Messrs. Robertson and Evans said that electricity was the only motor that could be utilized, as the expense of a cable road could not be supported and horses could not travel on trestles. Mr. Sullivan stuck to his integrity and voted "No" against 29 ayes.

Mr. Lambie offered an ordinance regulating traction and electric railways as to street crossings, which was referred. The object is to require the ringing of bells and to make cars stop on crossings, and that the gong shall be placed outside instead of in-

The report of City Controller Morrow, of open Ross street to the Monongahela river and all other Common Council business of note Select Council concurred in. It became quite somnolent subsequently putit a communication was received from the Mayor, which made members scratch the wax out of their ears and tear their eyes

THE MAYOR'S BOMBSHELL. To the President and Members of Select and Com-mon Councils of the City of Pittsburg:

GENTLEMEN-Law and custom have made it the duty of the Mayor to submit from time to time to the public, through Councils, suggestions and information in regard to the government of the city, and in accordance therewith I respectfully submit the following for the conuderation of your honorable bodies: The growth of our city is a proper subject of

pride to every citizen; but the large increase of municipal expenditures, in the opinion of many registrar, \$1,800; 1 clerk, \$600; 2 assistant engitaxpayers, is considered greater than efficient and economical government would seem to require, In a communication to your honorable bodies on January 28 ult., I referred briefly to this subject; but, owing to the meager departmental estimates at that time, I was unable to make the suggestions to which I now invite your consideration; and, while the esti-mates now furnished are in some degree vague and incomplete, they furnish material for in-

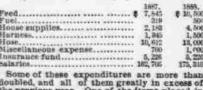

structive comparison.

I assume that the public is willing to pay liberally for efficiency but nothing for waste and extravagance, and, in view of the increasing ditures, it is a grave question whether the public is getting proper equivalent for the expenditures indicated in the estimate. No citizen will object to a proper increase in ex-penses; but an examination of the departmental estimates shows a large increase in al-most every direction, some items being doubled and trebled without any apparent necessity for such an increase, and, in order to make this plain to the public, a brief comparison of these official estimates is herewith submitted:

Public Works-Highway Department. 1887. 1888. .\$ 6,000 \$10,095 . 2,590 6,676 . 53,440 85,566

A LITTLE CONTRAST. It will be noted that, while the actual increase of labor is trifling, the increase of salaries is nearly double, and inspectors' nearly trebled, and I question whether the public is prepared to accept such a large increase.

Department of Public Safety-Fire Bureau.

THEIR LOST TIME ALSO.

His Bill of Particulars Embraces \$15 a week, and his pay of \$17 16 per week is also charged to the city, making \$32 26 per week outlay for a public servant mot on duty, while the firemen actually on duty get but \$17 16, and in addition to this the city furnishes the injured employe a physician's services free. I deem it proper to ask whether the city can afford to put such a high premium on disability, or whether it can get proper service under a system which offers such pecuniary inducements to the illness and trifling injuries of its servants? It is certainly a novelty in the insurance business, and I submit that the repeal of the act and an allowance of half time would lessen the cost without impairing the efficiency of the service.

lessen the cost without impairing the efficiently of the service.

In reference to the recent award of fire engine contracts and the litigation resulting therefrom, I have only to say that, in other departments of the city government, contracts are awarded to the lowest responsible bidder, and I see no good reason for a devarture from such a safe, business-like method in favor of the highest hidder. I would ask if the predent is to be established of awarding contracts to the highest hidder, what is to become of the law, which every public officer is sworn to support, providing for such awards to the lowest responsible bidder? As to the merits of the several engines offered I deem it a singular circumstance that fire engines which, after the most exhaustive tests, have been selected above all others by the largest fire departments of the country, are specifically excluded by our proposals from even being a bidder. I am in favor of public boards exercising a wise and business-

question whether they should not be suspended until their guilt or innocence has been deter-mined, as was done in Chicago during the week, in similar charges against Police Inspector Ben-field and Captain Shaack.

When the Gamewell system was introduced in this city it was claimed, both in and out of

Councils, that such a system was equivalent in efficiency to 50 additional policemen, and large-ly on this claim of efficiency the contract was

A VERY SHARP QUERY.

How have these promises been kept? I prefer to let the official figures speak. When the system was introduced here, the police force of in another department. Instead of this system being equivalent to 50 men, the force now numbers 262 men, or an increase of 62 over the number when this police-saving system was number when this police-saving system was introduced, or over 100 police more than we should have, had the claims put forth by this system been fulfilled. It will be found on examination, also, that nearly all this increase has been on high-salaried officers, and the number of men actually on patrol duty has been increased little or none.

In addition to the cost of extra police and the Gamewell system proper, a further expense.

In addition to the cost of extra police and the Gamewell system proper, a further expense of \$15,000 to \$20,000 has been incurred for station houses, necessitated by this system. This, added to the cost of extra police, makes over \$100,000, a very questionable outlay of public money. And this fact is perhaps worthy of your consideration. It was urged at the time by those opposed to the Gamewell system that the first cost of the plant was but the entering wedge of an expensive system. The contract price of the system May 7, 1887, was \$30,000. In the 12 months since its introduction the system has cost between \$55,000 and \$60,000—its maintenance doubling its original cost, and this in addition to the \$100,000 outlay hereinbefore noted.

noted.

In a message of this kind I can only refer to these matters briefly: but, in view of the urgent demand for restricting public expenditures within 'proper limits, I would suggest to your honorable bodies a careful scrutiny of the inmation herewith submitted, and a reduction

of expenditures where the same is compatible with public interests.

I make these suggestions in no spirit of censure, but in order that the public and their representatives, who are vitally interested in all matters pertaining to their taxable interests, may know how their money is being expended. It is for them to apply the remedy. Very re-WM. McCALLIN, Mayor.

THE REPORT BORE FRUIT. Finance Committee, and Mr. Frew offered a resolution that the Chief of the Depart-

his report was in Common Council where it was customary to report. The excuse was accepted, but Mr. Bigelow wouldn't allow it to rest there and said he made his reports monthly both to the Controller and Counoils, but Mr. Cox insisted that he had never heard such report and doubted that it had ever been offered. The Council, however, declared Mr. Bigelow purged of contemp

One of the items placed in those estimates as a basis of expenditure for the coming year is hay, at \$22 per ton. It is well-known that hay could have been purchased during the year at \$14 per ton, and, as the city has ample storage room, there is no reason why it should not purchase it at least as flow as a private and smaller purchased, the tablest and of paying \$5 per ton extra, or nearly \$60 per cent higher. The fire hose purchased by the city is guaranteed for a number of years, as the contractshows; but if from \$1,000 to \$13,000 worthan nually becomes so unfit for use as to have to be replaced, it is questionable whether the hose purchased is equal to the guarantee; and if not,

The report of the Department of Public Works, showing the expenses of December, 1888, to be \$38,472 43, was approved.

A FEW FISCAL MATTERS

Disposed of With Neatness and Dispatch By the Common Branch.

In Common Council, after providing that all revenue not otherwise appropriated and all unexpended balances be credited to the sinking fund on and after March 31, Mr. Magee, from the Finance Committee, presented a communication from the Controller relative to the payment of \$3,314 to John Waltz for extra work on the Fourteenth ward station. The resolution was passed.

Then, subsequent to the presentation of several routine street matters, none of which reached a final stage, the chair read a communication from the Controller stating that since November 9 last he had purchased for the sinking fund city bonds amounting

Mr. Ferguson presented with a negative from the Committee on Public Works the ordinance for the purchase of a site for a hose house in the Twenty-seventh ward; indefinitely postponed.

There was also a communication from S.

A. Duncan asking for \$10,000 for an engine house in the Thirteenth ward. Dear Sir: I was suffering from derangement of the kidneys to such an extent that nearly all the nourishment taken into my system passed off through the kidneys. I became restless at night and frequently suffered pain in the back. In a few weeks I lost 25 pounds in flesh. I commenced the use of Pratt's Aromatic Geneva Gin, following the directions closely, and in six weeks regained my former health and weight. I can cheerfully recommend it. Yours respectfully,

MYSTERIOUS EXHIBITION

Imperial Hall, Cor. Seventh Ave. and New Grant Street.

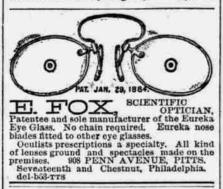

PUBLIC HEALING OF THE SICK WITHOUT MEDICINE.

Dr. Smith, of New York, has engaged Imperial Hall, cor. Seventh ave. and new Grant st., in the city of Pittsburg, where he will publicly heal the sick free of charge every morning from 10 to 11 o'clock for about three weeks, commencing THURSDAY MORNING, FEB. 14. He has also engaged parlors at the Seventh Avenue Hotel, rooms 127 and 128, where he will remain for several months, and where those who are able and willing to pay may go from 9 a. M. until 7 p. M. daily. Dr. Smith invites everybody to go to Imperial Hall and listen to his lectures and witness his strange and mysterious cures without medicine. Many listen to his lectures and witness his strange and mysterious cures without medicine. Many cases of years' standing, which have been given up as incurable, are restored to health in a few moments by the simple application of his hands to the diseased parts. Dr. Smith bears the highest indorsement of prominent people throughout the different States. People have been carried to him on beds and in chairs who have been helpless invalids for years and walked away after one magnetic treatment. Both the sick and the well should attend Dr. Smith's lectures at Imperial Hall. They will astonish the skeptical and set the serious to thinking.

Admission to the hall free. Consultations at Admission to the hall free. Consultations at the Seventh Avenue Hotel also free. Dr. Smith can cure you after all other means fail. fel2-73

KAUFMANNS ∴ BIG ∴ SHOE HAUL

NEW ADVERTISEMENTS.

At a recent assignee sale of the stock of a prominent Lynn, Mass., Shoe manufacturer, the agent of the firm of J. Kaufmann & Bros., Pittsburg, bought over two-thirds of the entire stock. This is unquestionably the largest purchase of the kind ever known.-(Boot and Shoe Gazette.)

The above is self-explanatory and needs no comment. All we will add is that these goods are of the class we have the exclusive reputation of carrying-The Very Best. The purchase required a very large amount of Spot Cash and we got every pair at a ridiculously low price. The entire stock is new and fresh, having been especially manufactured for the coming spring trade. We are now going to give you bargains in Shoes as you never saw or heard of.

OUR LUCK WILL BE YOUR LUCK,

for we have just placed on sale our entire purchase at amazingly low prices. But even this is not all, for in pursuance of our rigidly enforced business rule of never carrying goods from season to season to become "shopworn" or "out-of-style," and to close out all Odds and Ends and regular lines of Shoes that we have decided to change for others now in process of manufacture for our new spring stock, we open our annual Clearance Sale of Shoes simultaneously with our big Assignee's Sale purchase.

These Two Sales Merged Into One

gives the people of Pittsburg and vicinity the greatest opportunity to buy fine, stylish, solid footwear for positively less money than the cost of manufacture. We quote a few specimen bargains, but they are not a one-hundreth of the great bargains offered:

Ladies' French Kid hand-turned Boots at \$4, worth \$6. Ladies' bright Dongola Boots at \$2, worth \$3. Ladies' hand-sewed Waukenphast Boots at \$3 50, worth \$5. Ladies' hand-turned bright Dongola Boots at \$3, worth \$5.

why have not the contractors been called on to make good their guarantee? It would seem, in view of the large and annually increasing estimate in this direction, that an exact report of all the hose in the department, and its condition, would be in order.

In the fire estimate for 1889 the item of lost time is placed at \$2,000, and in the same estimate \$5,970 are asked for insurance of employes. When the Disability Board was created it will be remembered that the salaries of the firemen were increased a sum sufficient to pay for this insurance. In form the firemen paid the insurance, in fact the city paid it, and in the present instance the city is asked to pay for the insurance of its employes and

Police Department,

In relation to recent charges against officials in the Police Department by the press and citizens, I would respectfully urge a full and impartial trial, by an impartial tribunal. The accused are presumed to be innocent until proven guilty, but their presence on the force in the face of such grave charges manifestly impairs the efficiency of the whole force, and it is a question whether they should not be suspended until their guilt or innocence has been deter-
